New York Stock Market

New York, October 24.—Almost the only noteworthy feature of to-day's stock market was its stubborn resistance to a series of bear attacks. From the very outset the interests adopted an aggressive attitude, finding slight encouragement in the state of the foreign markets, but moderate support invariably resulted in general recoveries. The selling movement concentrated against United States Steel, the Hill issues, Union Pacific, Canadian Pacific and Lohigh Valley. Reading was easily the strongest of the railway group. Prices wavered uncertainly in the late session but a mild furry in call loans, which rose to 6 per cent, caused another setback, but support was again effective in restoring the general level to a fraction over the preceding day's close.

The sudden rise in money occasioned

general level to a fraction over the preceding day's close.

The sudden rise in money occasioned no surprise in view of the condition of the local banks. Their cash loss to the interior, chiefly through the Subtreasury, totals about \$5,00,000 thus far, with indication of a further drain towns the money was firm on the increased demand, but rates were unchanged. The rise in the German Bank's discount rate from 4 1-2 to 5 per cent was 'in keeping with last week's advances by the English and French institutions. Paris prices held firm, and Berlin displayed more confidence. The Bank of England slightly increased its liability reserves and builton holdings, Bonds again reflected the irregular course of stocks on light training. United States bonds were unchanged on call.
